Record rain + melted snow in your chosen units. Write 0 for a dry day and T for a trace (wet, but below the smallest mark; counts as 0 in the total). Mark missed readings "missing". Leave blank only dates the month doesn't have. Note any multi-day collection.

Monthly total

Known total _____

Missing days _____

With missing days, label the total incomplete.

Compare with normal

Normal / source _____

Difference: total − normal _____

Use the same month, units and a stated normal period.
